CHANGE LIVES!

Education is the key to a strong and vibrant economy.

Beaufort County is growing and has the opportunity to thrive in this economic environment. At The Literacy Center our goal and focus is to support the economy, our quality of life and our community. We do this by teaching more than 500 adults annually to read, write, understand math, speak better English and improve their functional literacy skills. TLC also provides workforce development classes for free. TLC helps students get a GED, Work Keys Certification and become citizens. In the evenings we provide Family Literacy classes to empower families to break the intergenerational cycle of low literacy.

The Literacy Center is your pipeline to qualified employees.

Our students are also your clients, customers and active members of the community. A strong and community minded network, our students are loyal to businesses that support their goals to have a better life for themselves and their families.

Who are TLC's students?

Our students are local adults 18 years or older who have a desire to realize their individual potential through increased literacy. Others speak a language other than English and want to learn English or improve their English-speaking ability. Many of our students have advanced degrees from universities but don't speak fluent English. An architect, veterinarian, engineer, attorney, professional photographer and physicians have all successfully graduated from TLC! We also have Family Literacy classes that parents and their children attend together.
